

Otto Mønsted Visiting Professorships for foreigners

The Otto Mønsted Foundation has earmarked DKK 3.3 million in 2019 for the remuneration of foreign visiting professors at DTU (Technical University of Denmark) and CBS (Copenhagen Business School).

The institutes can apply for support to employ foreign visiting professors by using the online application system at www.ottomoensted.dk during the period of February 11 to June 5 2019.

Applications are to be filled out and submitted online, as well as printed and sent with appendices to the Rector.

The application must include the following information:

- Visiting professor's name, age and place of employment.
- Duration of stay, and the exact period.
- Bibliometric research indicators for the visiting professor.
- Academic field and its research relevance in a Danish context.
- The visiting professor's participation in teaching areas at the institution.
- The possibility of establishing new networks by means of the visiting professorship.
- The visiting professor's significance for the department's academic strategy.

The Foundation primarily grants three-month visiting professorships and the maximum support is normally DKK 70,000 per month and covers only salary expenditure. Subsequent application to split a visiting professor stay in shorter periods, will only in exceptional cases be granted.

Overhead and administration expenses are not eligible for support.

Academically, the visiting professor must be at professorial level and must contribute to elitist education. The Foundation gives priority to visiting professors who are not returning from previous years.

The institution and Rector prioritize the submitted applications. The final priority must be submitted to Otto Mønsted Foundation through the online application system. A total recommendation for all submitted visiting professors applications, including descriptions of how the visiting professor will be included in the institution's academic strategy, as well as its research relevance in a Danish context, must be mailed to the fund no later than August 5 2019.

At the meeting in late September 2019, the Board of the Otto Mønsted Foundation will select which visiting professors and research areas that will receive funding. In early October all applicants will be notified of the board's decision and a total allocation overview will be sent to the Rector.

The Otto Mønsted visiting professors are expected to be employed by the institution on the same wage terms as the institution's own visiting professors.

The total allocation will be transferred to the institution, which then will be responsible for the financial administration.

The appropriation can only be used to cover the specific visiting professor's salary expenses, during the stated period. If changes occur, please inform us.
